Rights	Description of the Right	Possible Values
Smart Modeling Right Structure		
Versions		
Manage Versions	To hide the Versions submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Access	To hide the Access submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Languages	To hide the Languages submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Update	To hide the Update submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Users		
Manage Users	To hide the Users submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Offices	To hide the Offices submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Sales Groups	To hide the Sales Groups submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Positions		
Manage Positions	To hide the Positions submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Quantity Units	To hide the Quantity Units submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Cost Groups	To hide the Cost Groups submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Attributes		
Manage Attributes	To hide the Attributes submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Hierarchies		
Manage Hierarchy Groups	To hide the Hierarchy Groups submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Hierarchies	To hide the Hierarchies submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Sections	To hide the Sections submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Prices		
Manage Currencies	To hide the Currencies submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Price Types	To hide the Price Types submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Price Groups	To hide the Price Groups submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Price Categories	To hide the Price Categories submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Price Factors	To hide the Price Factors submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Systems		

Manage Systems	To hide the Systems submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage System Families	To hide the System Families submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Documents		
Manage Documents	To hide the Documents submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Modeling		
Manage Models	To hide the Models submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Masks	To hide the Masks submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Group of Rules	To hide the Group of Rules submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Rules	To hide the Rules submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Check Rule	To enable the check rule function	Yes or No
Manage Variables	To hide the Variables submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Linked Values	To hide the Linked Values submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Debug	To hide the Debug submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Data Management		
Manage System Offer Types	To hide the System Offer Types submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage User Roles	To hide the User Roles submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Status and Reasons	To hide the Status and Reasons submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Countries	To hide the Countries submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Addresses	To hide the Addresses submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Address Roles	To hide the Address Roles submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Address Sources	To hide the Address Sources submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Lists	To hide the Lists submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Notes	To hide the Notes submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage Cliparts	To hide the Cliparts submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Manage SQL Connections	To hide the SQL Connections submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write

Manage Customizing	To hide the Customizing submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Profiles		
Manage Profiles	To hide the Profiles submenu entirely, to make it's contents only viewable, or make it viewable and editable	Not allowed, Read, or Read / Write
Address Details		
CMR Type	To enable the CMR Type field when adding/editing addresses	Disabled or Enabled
Use CMR	To enable the Use CMR field when adding/editing addresses	Disabled or Enabled
Use UAN	To enable the Use UAN field when adding/editing addresses	Disabled or Enabled
Use SAP	To enable the Use SAP field when adding/editing addresses	Disabled or Enabled
